In compiling the 2021/22 Adjustments Budget, the importance of credibility, sustainability, responsiveness, and affordability remains integral in striving to achieve the desired outcome of effective and efficient service delivery.

1. Adjustments Budget Tables – refer to Annexure A

B1 Consolidated Adjustments Budget Summary

The table above is a budget summary and provides a concise overview of Breede Valley Municipality’s budget from all the major financial perspectives (operating, capital expenditure, financial position, cash flow, and MFMA funding compliance).

The table provides an overview of the amounts approved by Council for operating performance, resources deployed to capital expenditure, financial position, cash and funding compliance, as well as the municipality’s commitment to eliminating basic service delivery backlogs.

B2 Consolidated Adjustments Budget Financial Performance by Standard Classification

Table B2 above is a view of the budgeted financial performance in relation to revenue and expenditure per standard classification. The GFS standard classification divides the municipal services into 15 functional areas.

Total Revenue on this table includes capital revenues (Transfers recognized – capital) and so does not balance to the operating revenue shown on Table B4.

B3 Consolidated Adjustments Budget Financial Performance by Municipal Vote

Table B3 above is a view of the budgeted financial performance in relation to the revenue and expenditure per municipal vote. This table facilitates the view of the budgeted operating performance in relation to the organizational structure Breede Valley Municipality. This means it is possible to present the operating surplus or deficit of a vote.

B4 Consolidated Adjustments Budget Financial Performance (Revenue and Expenditure)

Table B4 above is a view of the budgeted financial performance in relation to the revenue by source and expenditure by type.

B5 Consolidated Adjustments Budget Capital Expenditure Vote and Funding

Table B5 is a breakdown of the capital programmed in relation to capital expenditure by municipal vote (multi-year and single-year appropriations); capital expenditure by standard classification; and the funding sources necessary to fund the capital budget, including information on capital transfers from national and provincial departments

B6 Consolidated Adjustments Budget Financial Position

Table B6 is consistent with international standards of good financial management practice and assist stakeholders in understanding the impact of the budget on the statement of financial position (balance sheet).

This format of presenting the statement of financial position is aligned to GRAP1, which is generally aligned to the international version which presents Assets less Liabilities as “accounting” Community Wealth. The order of items within each group illustrates items in order of liquidity; i.e. assets readily converted to cash, or liabilities immediately required to be met from cash, appear first.

B7 Consolidated Adjustments Budget Cash Flows

The budgeted cash flow statement is the first measurement in determining if the budget is funded. It shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget.

B8 Consolidated Cash Backed Reserves/Accumulated Surplus Reconciliation

The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 – Funding a Municipal Budget. In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.

B9 Consolidated Asset Management

Please refer to table B9

Table B9 provides an overview of municipal capital allocations to building new assets and the renewal of existing assets, as well as spending on repairs and maintenance by asset class.

B10 Consolidated Basic Service Delivery Measurement

Table B10 provides an overview of service delivery levels, including backlogs (below minimum service level), for each of the main services.

6.11 WATER SERVICES AUDIT REPORT FOR 2020/2021**File No./s:** 11/1/R**Responsible Official:** J. D. Pekeur**Directorate:** Public Services**Portfolio:** Water Services

1. Purpose

To obtain Council's approval of the Water Services Audit Report for 2020/2021.

2. Background

Section 62 of the Water Services Act requires the Minister to monitor every WSA in order to ensure compliance with the prescribed national standards. This regulation requires a WSA to complete and submit a water services audit every year.

The water services audit is designed to monitor the compliance of the WSA and other WSIs with these regulations. It allows the water services audit to be used as a tool to compare actual performance of the WSA against the targets and indicators set in their WSDP. It also assists local communities and DWS to assess how well WSAs are performing relative to their stated intentions and their capacity.

The Water Services Audit Report will give an overview of the implementation of the previous years' WSDP of Breede Valley Municipality and can be seen as an annexure to Breede Valley Municipality's Annual Report. The Annual Report is compiled as required by the Local Government: Municipal Systems Act, Act no 32 of 2000 (Section 46) and the Local Government: Municipal Finance Management Act, Act no 56 of 2003 (Section 121).

Methodology followed: The Service Delivery Budget Implementation Plan (SDBIP) of Breede Valley Municipality for 2020/2021 was used to report on the KPIs for water and sewerage services. The previous WSDP was further used as basis to compile the report. The latest water usage figures and WWTWs flows up to June 2021 were obtained from Breede Valley Municipality, analysed and included under the various sections of the Water Services Audit Report.

Availability of the Water Services Audit Report: The Water Services Audit Report is a public document and must be made available within four months after the end of each financial year and must be available for inspection at the offices of the Municipality. It is also recommended that the document be placed on the Municipality's website and that copies of the document be placed at the public libraries. The Water Services Audit Report must also be made available to DWS for their comments as required by legislation.

3. Financial Implications

No financial implications.
