Preface by the Executive Mayor

I am pleased to present the Strategic Risk Management Report of the Breede Valley Municipality for the period 2019-2020.

This report is an analysis of the Breede Valley Municipality's progress in reducing strategic risks to ensure that the Council's core public service values, vision, objectives and service delivery expectations of the public as stipulated in

Many organisations struggle with the development and implementation of an enterprise risk management program, due to limited resources. Reducing poverty and inequality is the overriding concern of South Africa's development policies and programs, from the onset of our democracy in 1994. Also, in terms of the 2019 Human Development Report, they will focus on understanding the dimensions of inequality and most important to people's wellbeing, and what is behind them.

It is very important that before you start with any type of risk assessment exercise, you need to define what the business are. In the municipality's case, you need to link the different requirements together, such as Community expectations, Constitutional objectives and areas of Legislative competence, together with our own Municipal Objectives.

As the Executive Mayor, I believe that this report should guide Council and Senior Management to act beyond just identifying and reporting risks but talk actions and making decisions that impact on changing the lives of our communities by ensure good governance, compliance and improved service delivery.

Alderman, Cllr Antoinette Steyn Executive Mayor Breede Valley Municipality

Insight by the Municipal Manager

As the Accounting officer, it is my responsibility to ensure that the Municipality has and maintains effective, efficient and transparent systems, of financial and risk management and internal control as required in terms of the Local Government: Municipal Finance Management Act, 56 of 2003.

Risk Management is an approach to align strategy, processes and decision making, to create an environment that curtail uncertainties and losses; and to capitalise on business opportunities.

According to the draft Local Government Risk Management Framework, "the primary reason for risk management is to empower municipalities to achieve service delivery objectives, thereby creating value to the recipients of services. The municipal context can be incorporated successfully if, among others, risk management activities are transparent, inclusive and are an integral part of municipal processes. There is an expectation that municipalities should create value for the citizenry."

Considering, the abovementioned, Management is responsible to establish an appropriate risk and control environment. Good risk management is key to accomplish business success and therefore must be aligned to the municipal objectives. This report captures the strategic risks as identified and assessed for the period 2019-2020 financial year from professionals within their respective Directorates. It further includes information on the linkage between Objectives; the King IV Code on Corporate Governance, the 2019 South Africa Risk Relationship and Risk Casual Relationship Analysis, Top 10 Risks in South Africa; as well as the Global Risk Report's top five risks for both Likelihood and Impact.

Great appreciation to all the Directorates for their professional services and contribution towards the fulfilment of Management responsibilities.

David McThomas Municipal Manager Breede Valley Municipality

King IV Code on Corporate Governance

1. Leadership:

"Principle- The governing body (Council) should set the tone and lead ethically and effectively.

- 1. Members of the governing body should individually and collectively cultivate the following characteristics and exhibit them in their conduct:
- c) Responsibility
 - ii. Members of the governing body should exercise courage in taking risks and capturing opportunities, but do so in a responsible manner and in the best interests of the organization"

2. Organisational Ethics:

"Principle 2 - The governing body (Council) should govern the ethics of the organization in a way that supports the establishment of an ethical culture.

- 6. The governing body should ensure that codes of conduct and ethics policies:
 - b. addresses the key ethical risk of the organization.

3. Strategy and performance

"Principle 4 - The Council should appreciate that the municipality's core purpose, its risks and opportunities, strategy, business model, performance and sustainable development are all inseparable elements of the value creation process.

- 3. The organisation's short, medium and long-term strategy as formulated and developed by management should be approved by the governing body. When considering the proposed strategy for approval, the governing body should challenge it constructively with reference to, among others, the following:
 - b. The risks, opportunities and other significant matters connected to the triple context in which the organization operates.

4. Composition of the governing body (Composition)

Nomination, election and appointment of members to the governing body

"Principle 7 - The governing body (Council) should comprise the appropriate balance of knowledge, skills, experience, diversity and independence for it to discharge its governance role and responsibilities objectively and effectively.

24. A programme of professional development and regular briefings on legal and corporate governance developments, and risks and changes in the external environment of the organization, should be provided for members of the governing body.

• Chair of the governing body

36. When determining which of its committees the chair of the governing body serve on, either as member or chair, the governing body should consider how this affects the overall concentration and balance of power of the governing body. Generally, the following should apply:

d. The chair may be a member of the committee responsible for the risk governance and may also be its chair.

• Audit committee

- 53. If the governing body delegates risk governance to the audit committee, the audit committee should satisfy itself that it dedicates sufficient time to this responsibility.
- 54. Whether or not the governance of risk is delegated to the audit committee, the audit committee should oversee the management of financial and other risks that affect the integrity of external reports issued by the organization.
- 59. In addition to required statutory disclosure and the disclosures recommended in paragraph 50 of the King IV Code, the following should also be disclosed in relation to the auditcommittee:

iv. significant changes in the management of the organization during the external audit firm's tenure which may mitigate the attendant risk of familiarity between the external auditor and management.

• Committee responsible for risk governance

- 62. The governing body should consider allocating the oversight of risk governance to a dedicated committee or adding it to the responsibilities of another committee as is appropriate for the organization.
- 63. If the committees for audit and risk are separate, the governing body should consider for one or more members to have joint membership of both committees for more effective functioning.
- 64. The committee for risk governance should have executive and non-executive members, with a majority being non-executive members of the governing body.

Refer to paragraph 50 of the King IV Code for the recommended disclosures in relation to the committee responsible for nominations.

5. Risk governance

Principle 11 - The governing body (Council) should govern risk in a way that supports the municipality in setting and achieving its strategic objectives.

- 1. The governing body should assume responsibility for the governance of risk by setting the direction for how risk should be approached and addressed in the organization. Risk governance should encompass both:
 - a. the opportunities and associated risks to be considered when developing strategy; and
 - b. the potential positive and negative effects of the same risks on the achievement of organisational objectives.
- 2. The governing body should treat risk as integral to the way it makes decisions and executes its duties.
- 3. The governing body should approve policy that articulates and gives effect to its set direction onrisk.
 - 4. The governing body should evaluate and agree the nature and extent of the risks that the organization should be willing to take in pursuit of its strategic objectives. It should approve inparticular:
 - a. the organisation's risk appetite, namely its propensity to take appropriate levels of risk; and
 - b. the limit of the potential loss that the organization has the capacity totolerate.
- 5. The governing body should delegate to management the responsibility to implement and execute effective risk management.
- 6. The governing body should exercise ongoing oversight of risk management and, in particular, oversee that it results in the following:
 - a. An assessment of risks and opportunities emanating from the triple context in which the organization operates and the capitals that the organization uses and affects.
 - b. An assessment of the potential upside, or opportunity, presented by risks with potentially negative effects on achieving organisational objectives.
 - c. An assessment of the organisation's dependence on resources and relationships as represented by the various forms of capital.
- d. The design and implementation of appropriate risk responses.
 - e. The establishment and implementation of business continuity arrangements that allow the organization to operate under conditions of volatility, and to withstand and recover from acute shocks.
 - f. The integration and embedding of risk management in the business activities and culture of the organization.
- 7. The governing body should consider the need to receive periodic independent assurance on the effectiveness of risk management.
- 8. The nature and extent of the risks and opportunities the organization is willing to take should be disclosed without compromising sensitive information.
- 9. In addition, the following should be disclosed in relation to risk:

- a. An overview of the arrangements for governing and managing risk.
- b. Key areas of focus during the reporting period, including objectives, the key risks that the organization faces, as well as undue, unexpected or unusual risks and risks taken outside of risk tolerance levels.
- c. Actions taken to monitor the effectiveness of risk management and how the outcomes wereaddressed.
- d. Planned areas of future focus.

6. Technology and information governance

Principle 12 - The governing body (Council) should govern technology and information in a way that supports the municipality setting and achieving its strategic objectives.

- 13. The governing body should exercise ongoing oversight of technology and information management and, in particular, oversee that it results in the following:
 - b. Integration of technology and information risks into organization-wide risk management.
 - e. Management of the performance of, and the risks pertaining to, third-party and outsourced service providers.
- 15. The governing body should exercise ongoing oversight of the management of technology and, in particular, oversee that it results in the following:
 - b. The management of the risks pertaining to the sourcing of technology.

7. Remuneration governance (Remuneration policy)

Principle 14 - The governing body (Council) should ensure that the municipality remunerates fairly, responsibly and transparently so as to promote the achievement of strategic objectives and positive outcomes in the short, medium and long term.

a.

 $28. \ The \ remuneration \ policy \ should \ be \ designed \ to \ achieve \ the \ following \ objectives:$

To attract, motivate, reward and retain human capital.

b. To promote the achievement of strategic objectives within the organisation's risk appetite.

8. Assurance (Combined assurance)

Principle 15 - The governing body (Council) should ensure that assurance services and functions enable an effective control environment, and that these support the integrity of information for internal decision-making and of the municipality's external report.

- 42. The governing body should oversee that the combined assurance model is designed and implement tocover effectively the organisation's significant risks and material matters through a combination of the following assurance service providers and functions as is appropriate for the organization:
 - a. The organisation's line function that own and manage risks.
 - b. The organisation's specialist functions that facilitate and oversee risk management and compliance.

• Assurance (Internal audit)

- 48. The governing body should assume responsibility for internal audit by setting the direction for the internal audit arrangements needed to provide objective and relevant assurance that contributes to the effectiveness of governance, risk management and control processes. The governing body should delegate oversight of internal audit to the audit committee, if in place.
- 50. The governing body should ensure that the arrangements for internal audit provide for the necessary skills and resources to address the complexity and volume of risk faced by the organization, and that internal audit is supplemented as required by specialist services such as those provided by forensic fraud examiners and auditors, safety and process assessors, and statutory actuaries.
- 58. The governing body should monitor on an ongoing basis that internal audit:
 - a. follows an approved risk-based internal audit plan; and
 - b. reviews the organisational risk profile regularly, and proposed adaptations to the internal audit plan accordingly.
- 59. The governing body should ensure that internal audit provides an overall statement annually as to the effectiveness of the organisation's governance, risk management and control processes.

9. Stakeholders (Stakeholder relationships)

Principle 16 - In the execution of its governance role and responsibilities, the governing body (Council) should adopt a stakeholder-inclusive approach that balances the needs, interests and expectations of material stakeholders in the best interests of the municipality over time.

- 4. The governing body should exercise ongoing oversight of stakeholder relationship management and, in particular, oversee that it results in the following:
- c. Management of stakeholder risk as an integral part of organization-wide risk management.

Summary of the linkage between Objectives

Section 62(1)(c)(i) and 95(c)(i) of the MFMA state that: "... The accounting officer of the Municipality and municipal entity is responsible for managing the financial administration of the Municipality and must for this purpose take all reasonable steps to ensure that the Municipality has and maintains effective, efficient and transparent systems of financial and risk management and internal control."

Section 3.2.1 of the Treasury Regulations states the following:

"The accounting officer must ensure that a risk assessment is conducted regularly so as to identify emerging risks of the institution. A risk management strategy, which must include a fraud prevention plan, must be used to direct the internal audit effort and priority ..."

Source: Enterprise Risk Management Policy – Breede Valley Municipality

Section 24 of the Municipal Systems Act states:

- "(1) The planning undertaken by a municipality must be aligned with, and complement, the development plans and strategies of other affected municipalities and other organs of state so as to give effect to the principles of cooperative government contained in Section 41 of the Constitution.
- "(2) Municipalities must participate in national and provincial development programmes as required in Section 153 (b) of the Constitution."

Top 20 South African Risks ranked on impact and likelihood as per the IRMSA Report

No.	Description
1.	Structurally high unemployment.
2.	Growing income disparity and inequality.
3.	Failure of governance - public.
4.	Unmanageable fraud and corruption.
5.	Inadequate and/or sub-standard education and skills development.
6.	Energy price shock.
7.	Labour unrest and strike action.
8.	National political uncertainty/instability.
9.	Cyber-attacks (ransom, algorithm shutdown of the internet of things).
10.	Macro-economic developments.
11.	Skills shortage including the ability to attract and retain top talent.
12.	Lack of leadership.
13.	Breakdown of critical infrastructure & networks (e.g. transport, information, roads).
14.	Government policy, legislative and regulatory changes and uncertainty.
15.	Failure of State, a State crisis or a State collapse.
16.	Global political uncertainty/disruption.
17.	Capital availability/credit risk.
18.	Insufficient supply of electricity.
19.	Failure of governance - private.
20.	Business interruptions (e.g. production, supply chain).

Risks identification and assessment by the Executive Management

The implementation of the Risk Management system is prescribed by legislation which the municipality must comply with.

Enterprise risk management (ERM) in business includes the methods and processes used by organizations to manage risks and seize opportunities related to the achievement of their objectives. The ERM in Breede Valley Municipality provides the framework for Risk Management, which typically involves identifying particular events or circumstances relevant to the municipality's objectives (risks and contributing factors), assessing them in terms of likelihood and impact, determining a response strategy (action plans), and monitoring progress.

The management response strategy for the specific risks identified and analysed, fall within the following four categories as well as the appetite of 9 as approved by Council:

- **Avoid** Action is taken to exit the activities giving rise to risk. Risk avoidance may involve exiting a product line, declining expansion to a new geographical market, or selling a division.
- **Reduce** Action is taken to reduce the risk likelihood or impact, or both. This may involve any of a myriad of everyday business decisions.
- **Share** Action is taken to reduce risk likelihood or impact by transferring or otherwise sharing a portion of the risk. Common risk sharing techniques include purchasing insurance products, pooling risks, engagingin hedging transactions, or outsourcing an activity.
- **Accept** No action is taken to affect likelihood or impact.

The followi	ng tables provide the ri	sk ratings:			
Potential I	mpact / Consequence	9	T	T	
Rating	Continuity of Service	Safety & Environmental	Technical Complexity	Financial	Achievement of objectives
Catastrophic (5)	Risk event will result in widespread and lengthy reduction in continuity of service delivery to customers for a period greater than 48 hours	Major environmental damage. Serious injury (permanent disability) or death of personnel or members of the Public. Major negative media coverage.	Use of unproven technology for critical systems / project components. High level of Technical Interdependencies between system components.	Disaster with potential to lead to collapse of business and is fundamental to the achievement of objectives.	Negative outcomes or missed opportunities that are of critical importance to the achievement of objectives
Major (4)	Reduction in service delivery or disruption for a period ranging between 24 & 48 hours over a significant area	Significant injury of personnel or public. Significant environmental damage. Significant negative media coverage	Use of new technology not previously utilised by the organisation for critical systems / project components	Critical event which can be endured but which may have a prolonged negative impact and extensive consequences	Negative outcomes or missed opportunities that are likely to have a relatively substantial impact on the ability to meet objectives
Moderate (3)	Reduction in service delivery or disruption for a period between 8 & 24 hours over a significant area	Lower level of environmental, safety or health impacts. Negative media coverage	Use of unproven or emerging technology for critical systems / project components.	Major events, which can be managed but requires additional resources and management effort.	Negative outcomes or missed opportunities that are likely to have a relatively moderate impact on the ability to meet objectives
Minor (2)	Brief local inconvenience (work around possible). Loss of an asset with minor impact on operations	Little environmental, safety or health mpacts. Limited negative media coverage	Use of unproven or emerging technology for systems / project components	Event, which can be managed under normal operating conditions	Negative outcomes or missed opportunities that are likely to have a relatively low impact on the ability to meet objectives
Insignificant (1)	No or minimal impact on business or core systems	No environmental, safety or health impacts and/or negative media coverage	Use of unproven or emerging technology for non-critical systems / project components	Consequences can be readily absorbed under normal operating conditions.	Negative outcomes or missed opportunities that are likely to have a relatively negligible impact on the ability to meet objectives

Likelihood/Probability of occurrence

Rating	Level	Description
5	Almost certain	The risk is already occurring, or is likely to occur more than once within the next 12 months
4	Likely	The risk will easily occur, and is likely to occur at least once during the next 12 months.
3	Moderate	There is an above average chance of the risk occurring more than once during the next 3 years
2	Unlikely	The risk has a low likelihood of occurring during the next 3 years
1	Rare/Remote	The risk is unlikely to occur during the next 3 years

Control Effectiveness

Rating	Level	Description
5	Excellent	Could not be more effectively implemented to mitigate the risk.
4	Good	Most risks are effectively controlled and mitigated.
3	Average	There is room for some improvement in the control system.
2	Unsatisfactory	Some risks appear to be controlled but there are major deficiencies.
1	Poor	The control system is ineffective.

Significance rating on the Objectives to determine the Impact on Performance

Rating	Level
5	Almost high significance
4	High significance
3	Moderate significance
2	Low significance
1	Very low significance

Certainty rating on the Objectives to determine the Impact on Performance

Rating	Description
1	90% - 100 certainty
2	80% - 90% certainty
3	70% - 80% certainty
4	60% - 70% certainty
5	50% - 60% certainty
6	40% - 50% certainty
7	30% - 40% certainty
8	20% - 30% certainty
9	10% - 20% certainty
10	1% - 10% certainty

Both the inherent and residual risks shall be measured as Low, Medium, High and Extreme.

This can be illustrated in the Heat Map, below:

	5	LOW	MEDIUM	HIGH	EXTREME	EXTREME
	4	LOW	MEDIUM	HIGH	HIGH	EXTREME
