3. DISCUSSION: SUPPLY CHAIN MANAGEMENT SYSTEMS

3.1 Demand Management:

Demand management requires timely planning and management processes to ensure that all goods and services which are required are quantified, budgeted for and delivered in a timely and effective manner at the right locations and at the critical delivery dates. These goods and services must be of appropriate quality and quantity at a fair cost.

The SCM Unit has, with support by the Accounting Officer and the Chief Financial Officer implemented SCM via a Demand Management Plan (DMP) as a strategic tool to implement the budget. The DMP assists the SCM Unit with the planning of tender processes and, user departments with the planning of the execution and timely completion of projects in alignment with performance targets in the Service Delivery and Budget Implementation Plan.

To enhance the demand planning process, an annual Demand Management Plan was developed for the 2018-2019 financial year for capital spending. Such plan is continuously monitored.

3.2 Acquisition Management

The system of acquisition management must ensure the following:

- That goods and services are procured in accordance with authorized processes only;
- That expenditure on goods and services is incurred in terms of an approved budget in terms of section 15 of the Municipal Finance Management Act (Act 56 of 2003);
- That the threshold values for different procurement processes are complied with;
- That bid documentation, evaluation and adjudication criteria and general conditions of a contract are in accordance with applicable legislations; and
- That any Treasury guidelines on acquisition management are properly considered.

The new Preferential Procurement Regulations 2017 promulgated for implementation on 1 April 2017 has been taken into consideration as well as the Treasury Circulars that have been issued from time to time.

3.2.1 Bid Committee Systems

A Bid Committee system for competitive bids has since been established and is fully operational. It comprises of the Bid Specification, Evaluation and Adjudication committees. The committees meet regularly. The Accounting Officer appoints members of each committee taking into account Section 117 of the MFMA. All tenders that have been approved by the Bid Adjudication Committee are reported on a monthly basis.
