71. Monthly budget statements

- (1) The accounting officer of a municipality must by no later than 10 working days after the end of each month submit to the mayor of the municipality and the relevant provincial treasury a statement in the prescribed format on the state of the municipality's budget reflecting the following particulars for that month and for the financial year up to the end of that month:
 - (a) Actual revenue, per revenue source;
 - (b) actual borrowings;
 - (c) actual expenditure, per vote;
 - (d) actual capital expenditure, per vote;
 - (e) the amount of any allocations received;
 - (f) actual expenditure on those allocations, excluding expenditure on
 - (i) its share of the local government equitable share; and
 - (ii) allocations exempted by the annual Division of Revenue Act from compliance with this paragraph; and
 - (g) when necessary, an explanation of-
 - (h) any material variances from the municipality's projected revenue by source, and from the municipality's expenditure projections per vote.
 - (ii) any material variances from the service delivery and budget implementation plan: and
 - (iii) any remedial or corrective steps taken or to be taken to ensure that projected revenue and expenditure remain within the municipality has approved budget.
- (2) The statement must include-
 - (a) a projection of the relevant municipality's revenue and expenditure for the rest of the financial year, and any revisions from initial projections; and
 - (b) the prescribed information relating to the state of the budget of each municipal entity as provided to the municipality in terms of section 87(10).
- (3) The amounts reflected in the statement must in each case be compared with the corresponding amounts budgeted for in the municipality's approved budget.
- (4) The statement to the provincial treasury must be in the format of a signed document and in electronic format.
- (5) The accounting officer of a municipality which has received an allocation referred to in subsection (1) (e) during any particular month must, by no later than 10 working days after the end of that month, submit that part of the statement reflecting the particulars referred to in subsection (1) (e) and (f) to the national or provincial organ of state or municipality which transferred the allocation.

- (6) The provincial treasury must by no later than 22 working days after the end of each month submit to the National Treasury a consolidated statement in the prescribed format on the state of the municipalities' budgets, per municipality and per municipal entity.
- (7) The provincial treasury must, within 30 days after the end of each quarter, make public as may be prescribed, a consolidated statement in the prescribed format on the state of municipalities' budgets per municipality and per municipal entity. The MEC for finance must submit such consolidated statement to the provincial legislature no later than 45 days after the end of each quarter.

GLOSSARY

Adjustments budget – Prescribed in section 28 of the MFMA. The formal means by which a municipality December revise its annual budget during the year.

Allocations – Money received from Provincial or National Government or other municipalities.

Budget – The financial plan of the Municipality.

Budget related policy – Policy of the municipality affecting or affected by the budget, examples include tariff policy, rates policy, credit control and debt collection policy.

Capital expenditure - Spending on assets such as land, buildings and machinery. Any capital expenditure must be reflected as a non-current asset on the Municipality's balance sheet.

Cash flow statement – A statement including only actual receipts and expenditure by the Municipality. Cash payments and receipts do not always coincide with budgeted timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month it is received, even though it may not be paid in the same period. The same principle applies with the cash receipts. The Municipality recognises the revenue on date of billing whilst payment may not appear in the same period; the receipt is recognised at date of receipt.

DORA – Division of Revenue Act. Annual legislation that shows the total allocations made by national to provincial and local government.

Equitable Share – A general grant paid to Municipalities. It is predominantly targeted to help with free basic services.

Fruitless and wasteful expenditure – Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GFS – Government Finance Statistics. An internationally recognised classification system that facilitates like for like comparison between Municipalities.

GRAP – Generally Recognised Accounting Practice. The new standard for municipal accounting.

IDP – Integrated Development Plan. The main strategic planning document of the Municipality

MBRR – Local Government: Municipal Finance Management Act (56/2003): Municipal budget and reporting regulations.

MFMA – Local Government: Municipal Finance Management Act (56/2003). The principle piece of legislation relating to municipal financial management. Sometimes referred to as the Act.

MTREF – Medium Term Revenue and Expenditure Framework. A medium-term financial plan, usually 3 years, based on a fixed first year and indicative further two years budget allocations. Also includes details of the previous and current years' financial position.

Operating expenditure – Spending on the day-to-day operations of the Municipality such as salaries and wages and general expenses.

Rates – Local Government tax levied in terms of the Local Government: Municipal Property Rates Act, Act 6 of 2004. The tax is based on the assessed market value of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

SDBIP – Service Delivery and Budget Implementation Plan. A detailed plan comprising quarterly performance targets and monthly budget estimates.

Strategic objectives – The main priorities of the Municipality as set out in the IDP. Budgeted spending must contribute towards the achievement of the strategic objectives.

Unauthorised expenditure – Generally, is spending without, or in excess of, an approved budget.

Virement – A transfer of budget.

Virement policy - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

Vote – One of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments of the municipality

SECTION 1 - MAYOR'S REPORT

SECTION 3 - EXECUTIVE SUMMARY

3.1 INTRODUCTION

The audited outcome for 2023/2024 reflected in this report are preliminary as the regulatory audit is still in process for the 2023/2024 financial year. The final audit-and management report will only be issued on 30 November 2024. The municipality has achieved a clean audit opinion (Unqualified with no matters of emphasis) for the prior year.

3.2 CONSOLIDATED PERFORMANCE

3.2.1 Against annual budget (Original approved and latest adjustments)

Revenue by Source

The figures represented in this section are the accrued amounts and not actual cash receipts; in other words, the amounts billed for property rates; service charges and interest as it become due.

The total revenue excluding capital transfers and contributions for the period 1 July 2024 –31 October 2024 is R 475 872 472 or 29.53% of the total budgeted revenue R1 611 276 750.

The total revenue is underperforming by 11% in comparison to the approved budget due to mainly traffic fine revenue which is recorded at year end. Property Rates reflects an overperformance of 46 % due to the annual rates that have been billed in July 2024. Service charges reflect an overall underperformance of 6%. This is mainly because water and electricity include an accrual journal which was processed in July 2024 to transfer revenue accrued before June 2024 but billed in July 2024 to move it to the 2023/2024 financial year. A journal will be processed in July 2025 to ensure that revenue billed for the period of June is accrued to the 2024/2025 financial year. Waste Management and Waste-Water Management have performed better than budgeted with overperformances of 22% and 23% respectively due to the annual services billed in July 2024.

Property Rates

Property Rates reflects an overperformance of 46% due to the billing of annual rate payers accounts.

A caring valley of excellence.

Service charges - electricity revenue.

The electricity revenue shows an 8% underperformance which is mainly due to the accrual journal.

To be GRAP compliant the municipality must process an accrual journal that recognizes revenue which was consumed in previous financial year but billed in the new financial year. In July 2024, the municipality processed a journal of R35 265 429 to recognize revenue billed in July, but services were utilized in the old financial year, which reduced the revenue in the current financial year. In July 2025 when the AFS are being finalized a journal will be processed to recognize the revenue consumed in June which will then align the revenue properly.

During the period 1 July 2024 and 31 October 2024, the municipality purchased 91 323 076 kWh (units) of electricity while 83 855 163 were distributed. This resulted in electricity distribution losses of 8.20% (7 467 912 kWh) during this period.

Service charges - water revenue.

Water revenue shows an underperformance of 38% due to the accrual journal as well as the fact the first quarter falls in winter.

In order to be GRAP compliant the municipality has to process an accrual journal that recognizes revenue which was consumed in previous financial year but billed in the new financial year. In July 2024 the municipality processed a journal of R7 862 915 to recognize revenue billed in July 2024, but services were utilized in the old financial year, which reduced the revenue in the current financial year. In July 2025 when the AFS are being finalized a journal will be processed to recognize the revenue consumed in June 2024 which will then align the revenue properly.

During the period of July 2024 till October 2024 a bulk water supply from source of 4 977 171 kiloliters (kl) of water was inputted into the water distribution system, while revenue water of 4 322 422 kl was accounted for. This means that 654 749 kl were lost. This represents overall water losses of 13.16%. The unbilled authorized consumption represents .70% (34 610) while customer meter and data errors are 2.23% (110 834 kl) resulting in real losses of 10.23% (509 305 kl).

Service charges - waste management and waste-water management

Waste management and Waste-water management revenue show an overperformance of 23% and 22%, respectively against the budgeted revenue. This is due to the billing of annual payers for these services.

<u>Interest earned – external investments</u>

Excess funds (own as well as unspent grants) have been invested in line with the funds and reserves policies.

<u>Interest earned – outstanding debtors</u>

Interest from overdue debtors shows an overperformance of 7% against the budgeted revenue. This is due to an over-estimation for the period under review based on past trends.

Fines, penalties, and forfeits

Fines are underperforming with 100 % of the budgeted amount. Traffic revenue will be updated when reporting for the first quarter. It should also be noted that traffic fines are primarily a law enforcement tool rather than a revenue generation mechanism. As a result, while the municipality endeavors to accurately budget based on past trends, the actual law enforcement activities might result in variances between budgeted revenue and actual revenue billed.

Agency Services

Agency Services revenue shows an overperformance of 17% against the budgeted revenue. Agency Services are done on an ad-hoc basis based on the demand from clients.

Licenses and permits.

The issuing of licenses and permits are done on an ad-hoc basis based on the demand from clients.

Transfers and subsidies - Operating.

The first transfer of the equitable share has been fully recognized for the year under review.

Gains

Gains from the disposal of assets are less than anticipated.

Transfers and subsidies - Capital

Capital grants are recognized when capital expenditure has been capitalized.

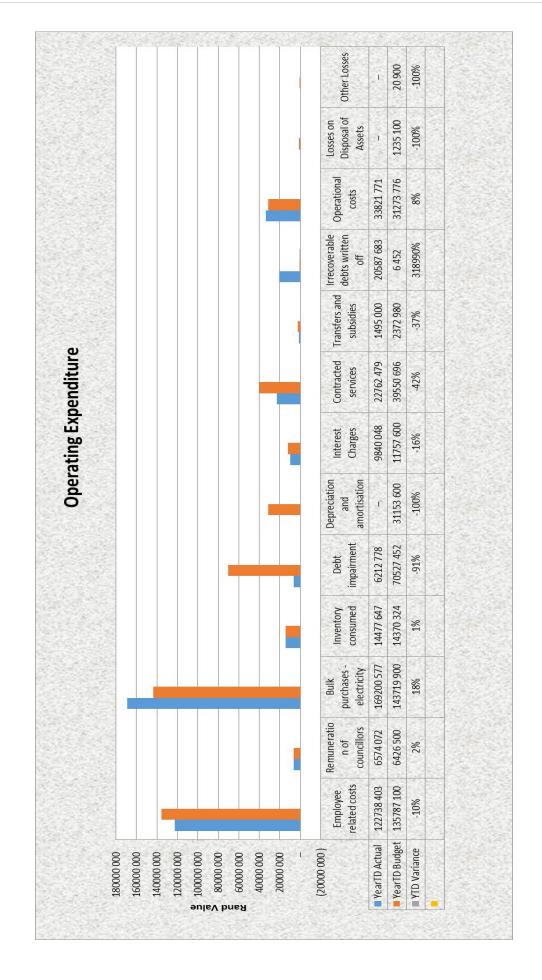

A caring valley of excellence.

Operating Expenditure by Type

The figures in this section should represent the accrued amounts; in other words when the goods have been ordered; received or the invoice has been completed (reconciled with goods received and prices quoted) it should be captured as an expense. Shadow figures are reflected on the financial system once an order is issued. This action serves as a budgetary control mechanism and no actual financial entries are passed. These figures cannot be used for reporting purposes. The amounts included as expenditure are currently only those for which a payment run has been completed.

The total expenditure amounts to R 407 710 458 or 25.22% of the total budgeted expenditure R1 616 596 707.

Refer to Section 4 – table C4 – Total expenditure by type

Capital Expenditure

The total capital expenditure for the period 1 July 2024 – 31 October 2024, amounts to R42 099 409 or 18.67% of the total capital budget that amounts to R225 437 920. **Capital grant funding** the total capital grant funding expenditure amounts to R14 203 485 or 26.15% of the total capital grant funding budget that amounts to R54 323 000.

Refer to Section 4 – table C5 for more detail.

A caring valley of excellence.

Cash Flow

The detail of this section can be found in Section 4 of this report Table C7 (Financial Position). The balance at the end of the period for the cash flow statement amounts to R175 643 904.

Refer to Section 4

- Supporting Table C7 and Section 7 for more detail on the cash position.

3.3 MATERIAL VARIANCES FROM SDBIP

Refer to Section 4 – Table SC1

3.4 REMEDIAL OR CORRECTIVE STEPS

No remedial or corrective steps are required at this time.
