SECTION 3 - EXECUTIVE SUMMARY

3.1 INTRODUCTION

The audited outcome for 2023/2024 reflected in this report are final as the Annual Financial Statements were completed and audited by the Auditor General. The invear report for November 2024 contains the final outcomes for the 2023/2024 audit. The municipality has achieved a clean audit opinion (Unqualified with no matters of emphasis).

3.2 CONSOLIDATED PERFORMANCE

3.2.1 Against annual budget (Original approved and latest adjustments)

Revenue by Source

The figures represented in this section are the accrued amounts and not actual cash receipts; in other words, the amounts billed for property rates; service charges and interest as it become due.

The total revenue excluding capital transfers and contributions for the period 1 July 2024 – 30 November 2024 is R 571 204 927 or 35.45% of the total budgeted revenue R1 611 276 750.

The total revenue is underperforming by 14% in comparison to the approved budget due to mainly traffic fine revenue which is recorded at year end. Property Rates reflects an overperformance of 33% due to the annual rates that have been billed in July 2024. Service charges reflect an overall underperformance of 5%. This is mainly because water and electricity include an accrual journal which was processed in July 2024 to transfer revenue accrued before June 2024 but billed in July 2024 to move it to the 2023/2024 financial year. A journal will be processed in July 2025 to ensure that revenue billed for the period of June is accrued to the 2024/2025 financial year. Waste Management and Waste-Water Management have performed better than budgeted with overperformances of 21% and 21% respectively due to the annual services billed in July 2024.

Property Rates

Property Rates reflects an overperformance of 33% due to the billing of annual rate payers accounts.

Service charges - electricity revenue.

The electricity revenue shows an 7% underperformance which is mainly due to the accrual journal.

To be GRAP compliant the municipality must process an accrual journal that recognizes revenue which was consumed in previous financial year but billed in the new financial year. In July 2024, the municipality processed a journal of R35 265 429 to recognize revenue billed in July, but services were utilized in the old financial year, which reduced the revenue in the current financial year. In July 2025 when the AFS are being finalized a journal will be processed to recognize the revenue consumed in June which will then align the revenue properly.

During the period 1 July 2024 and 30 November 2024, the Municipality purchased 112 664 591 kWh (units) of electricity while 103 703 945 were distributed. This resulted in electricity distribution losses of 7.98 % (8 960 646 kWh) during this period.

Service charges - water revenue.

Water revenue shows an underperformance of 36% due to the accrual journal.

In order to be GRAP compliant the municipality has to process an accrual journal that recognizes revenue which was consumed in previous financial year but billed in the new financial year. In July 2024 the municipality processed a journal of R7 862 915 to recognize revenue billed in July 2024, but services were utilized in the old financial year, which reduced the revenue in the current financial year. In July 2025 when the AFS are being finalized a journal will be processed to recognize the revenue consumed in June 2024 which will then align the revenue properly.

During the period of July 2024 till November 2024 a bulk water supply from source of 6 497 361 kiloliters (kl) of water was inputted into the water distribution system, while revenue water of 5 488 156 kl was accounted for. This means that 1 009 205 kl were lost. This represents overall water losses of 15.53%. The unbilled authorized consumption represents .75% (48 845) while customer meter and data errors are 2.17% (140 724 kl) resulting in real losses of 12.61% (819 636 kl).

Service charges - waste management and waste-water management

Waste management and Waste-water management revenue both show an overperformance of 21% against the budgeted revenue. This is due to the billing of annual payers for these services.

<u>Interest earned – external investments</u>

Excess funds (own as well as unspent grants) have been invested in line with the funds and reserves policies.

<u>Interest earned – outstanding debtors</u>

Interest from overdue debtors shows an overperformance of 2% against the budgeted revenue. This is due to an over-estimation for the period under review based on past trends.

Fines, penalties, and forfeits

Fines are underperforming with 100 % of the budgeted amount. Traffic revenue will be updated when reporting for the first quarter. It should also be noted that traffic fines are primarily a law enforcement tool rather than a revenue generation mechanism. As a result, while the municipality endeavors to accurately budget based on past trends, the actual law enforcement activities might result in variances between budgeted revenue and actual revenue billed.

Agency Services

Agency Services revenue shows an overperformance of 17% against the budgeted revenue. Agency Services are done on an ad-hoc basis based on the demand from clients.

Licenses and permits.

The issuing of licenses and permits are done on an ad-hoc basis based on the demand from clients.

Transfers and subsidies - Operating.

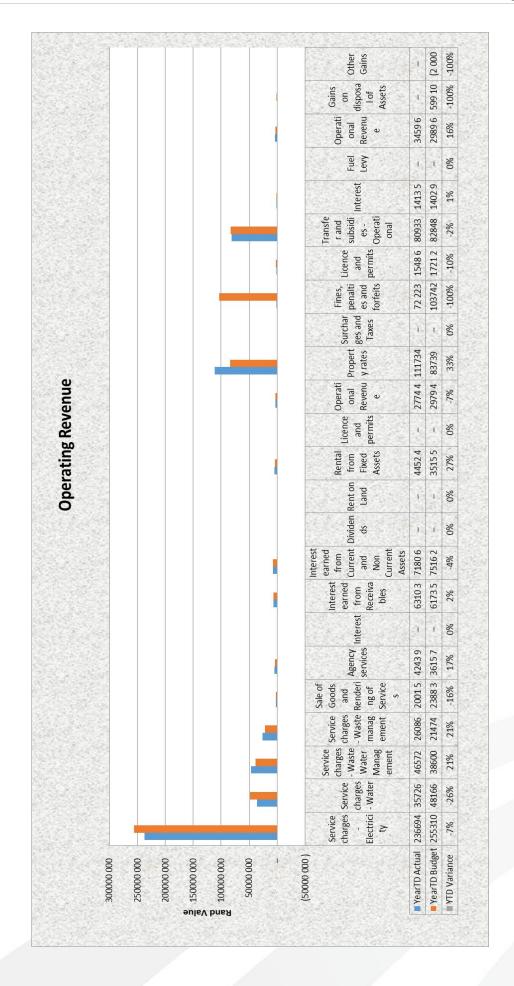

The first transfer of the equitable share has been fully recognized for the year under review.

Gains

Gains from the disposal of assets are less than anticipated.

Transfers and subsidies - Capital

Capital grants are recognized when capital expenditure has been capitalized.

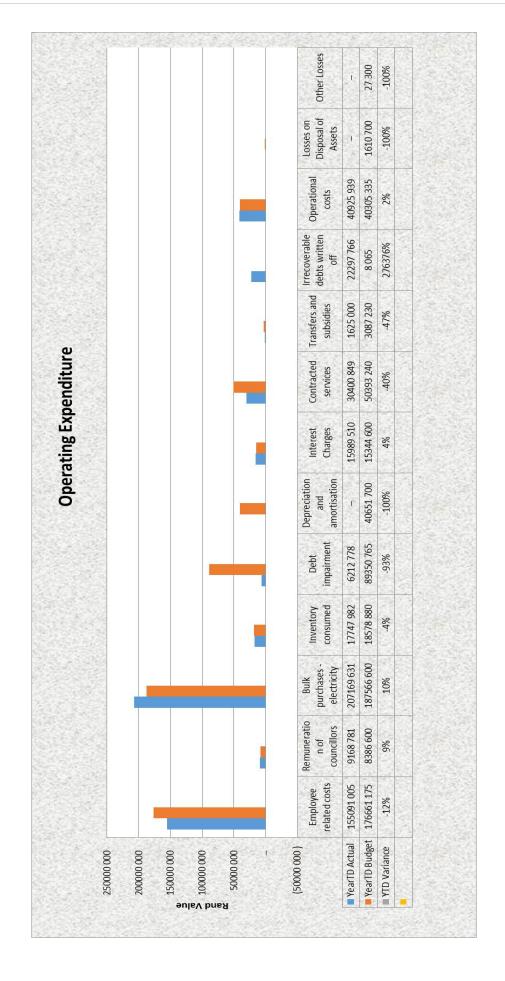

A caring valley of excellence.

Operating Expenditure by Type

The figures in this section should represent the accrued amounts; in other words when the goods have been ordered; received or the invoice has been completed (reconciled with goods received and prices quoted) it should be captured as an expense. Shadow figures are reflected on the financial system once an order is issued. This action serves as a budgetary control mechanism and no actual financial entries are passed. These figures cannot be used for reporting purposes. The amounts included as expenditure are currently only those for which a payment run has been completed.

The total expenditure amounts to R 506 629 241 or 31.34% of the total budgeted expenditure R1 616 546 707.

Refer to Section 4 – table C4 – Total expenditure by type

Capital Expenditure

The total capital expenditure for the period 1 July 2024 – 30 November 2024, amounts to R64 663 086 or 28.68% of the total capital budget that amounts to R225 487 920. **Capital grant funding** the total capital grant funding expenditure amounts to R19 255 732 or 35.45% of the total capital grant funding budget that amounts to R54 323 000.

Refer to Section 4 – table C5 for more detail.
